## Latest voice technology with 40% savings

### Overview

A leading Private school in Bahrain wanted to cut down their voice call bills and wanted to have the latest technology for voice platform.

### Solution

Customer approached Kalaam Telecom with this requirement and Kalaam Telecom instantly was able to offer the customer 40% saving on their voice calls. Just to give customer piece of mind on the voice quality Kalaam Telecom carried out a POC for one week after which the customer was completely satisfied and signed up with Kalaam Telecom for their voice services.

### Results

Customer got a saving of 40% on their voice bill along with excellent voice quality as Kalaam Telecom provides voice services to its customers via their robust SIP technology.
