

Case Study

Semi- Government Entity adopts IaaS and Backup on Cloud

Overview

A semi government entity was looking at having their Test & Dev infra & backup setup in cloud which would be start of their digital transformation roadmap, but they wanted their data to be present in Bahrain.

Solution

Kalaam Telecom being an AWS partner offered AWS IaaS & Backup services to the customer.

Result

Kalaam Telecom carried out a POC for the customer on AWS for a week and by end of the week customer signed Kalaam Telecom to be its cloud solution provider.
